

product spec & instructions

acf gel clear & pink

viscosity: 2

curing time: 120 seconds

acf gel is a non-acid and self-smoothing all round gel which is easy to apply and has excellent adhesion. can be used with our bonding gel or primer. acf gel has a subtle shiny finish and does not warm up when curing.

instructions

- use one of our professional nail files to bring your nails to the right length and shape
- prepare the surface of the nail by gently buffing to remove the natural shine
- remove any dust from your nails and hands using cotton wool (or a swab and the gel cleaner)
- apply a thin layer of acf gel at the cuticle and brush out the gel over the whole nail avoiding contact with the skin

apply a slightly thicker layer in the middle of the nail to create a perfect c-curve shape

- cure the gel in the uv lamp for 2 mins
- apply a second layer of gel to the whole nail and cure in the uv lamp
- apply our one of our high gloss top gels, top gel, quick finish iii or brush-on gel

acf gel is great for clients with allergies. it does not heat up under the uv lamp
