

product spec & instructions

all round gel blue

viscosity: 2

curing time: 120 seconds

all round gel blue is a low-acid all round gel which perfectly adapts to the natural nail and provides a beautiful shiny finish. all round blue is a self-smoothing gel and is perfect if you are a professional nail technician.

instructions

- prepare the surface of the nail by removing the natural shine using a buffer
- remove any dust by using a cotton wool (or swab) and gel cleaner
- use our bonding gel or primer
- apply a medium amount of gel to the c-curve (middle of the nail) and using slight pressure and circulating motions smooth out on to the whole nail and tip. avoid contact with the skin

apply a thicker layer to the middle of the nail to create a perfect c-curve

- cure the gel in the uv lamp for 2 mins
- repeat as above using a thin layer of gel and cure
- apply our one of our high gloss finish gels (top gel, quick finish gel iii or brush-on finish gel)

if you find all round blue gel too thin, especially during the summer months, use all round gel blue II which has a thicker viscosity
