

## *product spec & instructions*

### *fibreglass gel clear & rose*

**viscosity: 1**

**curing time: 120 seconds**

fibreglass gel is a self-smoothing all round gel with a subtle gloss finish. use this gel in combination with the fibreglass wraps and they will give you the ultimate hold for long-lasting tips or natural nails. great for filing due to its flexible texture and can also be easily removed. fibreglass gel rose has a subtle rose finish which gives the nail a natural look and covers up any marks or blemishes on the natural nail. fibreglass gel is a non-soak off gel

## *instructions*

- use a file to shape your nail to the desired form and gently buff the surface to remove the natural shine
- remove any nail dust
- apply a thin layer of fibreglass gel on to the c-curve and brush out on to the rest of the nail avoiding contact with the skin
- to get an optimal c-curve form apply a slighter thicker layer of gel in the middle of the nail
- cure the gel in the uv lamp for 2 mins
- apply a second thin layer of gel over the whole nail and cure as above
- finish with one of our high gloss gels, quick finish gel iii, brush-on gel or top gel

great for difficult nails with adhesion problems. hard gel manicures last up to 5 weeks.
