

## *product spec & instructions*

### *gel polish*

**viscosity: 1**

**curing time: 2 mins/uv lamp, 30 secs/led lamp**

easy to use, just like nail polish but longer lasting and with a high gloss finish. can be used on the natural nail or on tips and can be easily removed

can be used like a colour gel on gel nails and tips. gel polish is 100% dry when finished and is a soak-off gel that can be removed within minutes with gel polish remover

### *instructions*

- manicure the nails as normal, pushing back cuticles and removing any dead skin
- gently file the surface of the nail just enough to remove the natural shine and apply a very thin layer of primer, allow to dry for 20 seconds
- apply a thin layer of our gel polish base & finish avoiding any contact with the skin and cure for 2 minutes in a uv lamp or 30 seconds in an led lamp
- apply 2 thin layers of a gel polish colour and cure each layer as above
- apply gel polish base & finish taking care to cover the tip of the nail and cure as above
- remove the sticky layer

use with our primer and 2-1 gel polish base & finish. gel polish manicures last 2-3 weeks.
