

product spec & instructions

mirror pigment powder

ultra fine pigment mirror powder

mirror pigment powders come in different colour pigments. mirror 1 silver is best used with a black base, mirror 2 rose gold is best use with colours with a red pigment, mirror 3 is best used for colours with a blue pigment and so on.

for best results use mirror powders with a non-sticky top coat such as quick finish iii.

instructions

- finish your hard gel or gel polish manicure with quick finish iii
- apply by dabbing a small amount of powder onto an eyeshadow applicator and gently rub onto the finished nail

experiment by using different pigments on different colours, the results are endless!
