

## *product spec & instructions*

### *ultra pigment mirror powder*

ultra pigment mirror powder is a fine powder that gives nails a high gloss “mirror” effect.

### *instructions*

- for best results apply black gel polish GL600120 in the usual way
- apply our sticky-free gel top coat quick finish iii, no need to wipe
- using a standard eye shadow applicator, apply a small amount of powder gently rubbing it on to the nail until the nail is fully covered
- seal off with quick finish iii or gel polish base&finish

to create different mirror effects use our other ultra pigment mirror powders and try them out on different base colours
